

HOLLOWAY PARK

Dear Neighbour,

Tomorrow, Thursday 13th July, the Holloway Park team will be taking down the large chimney on site.

This work will not cause additional disruption beyond our usual day-to-day work, however we wanted to share this news with you as the chimney is visible from all around the area and its removal is a milestone in the delivery of this project.

The chimney will be carefully removed, with the team first using a hot cutting machine to cut through the base of the chimney and then a high reach machine to carefully lower it to the ground. We expect the full process to take around two hours to complete.

If you have any questions, please contact us on the details below.

Kind regards,

Holloway Park Construction Team
