

Dear Neighbours,

CONSIDERATE CONSTRUCTORS SCHEME UPDATE

We recently welcomed the Considerate Constructors Scheme (CCS) to site for our latest assessment and received a score of 97%, placing the development within the Outstanding category.

The CCS encourages construction sites to operate considerately, with a focus on their impact on neighbours and the wider community, the environment and those working on site.
Regular assessments help review the standards being maintained throughout the construction process, and we wanted to share our latest result with residents.

VISIT SCORE

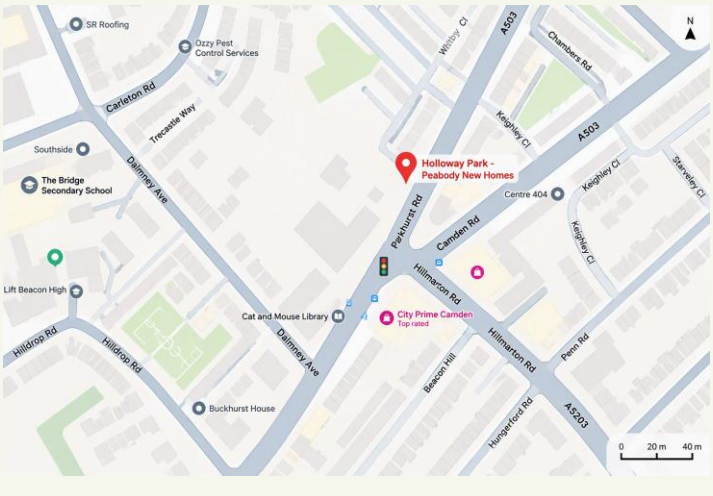

HOLLOWAY PARK: REVISED PLANS SUBMITTED

Peabody has submitted revised plans for Phases 2 and 3 of Holloway Park to Islington Council. It will be a few weeks before the application is available to view. Please keep checking hollowayparkcommunity.co.uk, where we'll share the application reference number and details of how to view and comment as soon as they're available.

Drop-In Sessions at our project office N7 0AF

Wednesday 4 November between 14:30 to 16:30
&
Wednesday 2nd December between 17:00 to 19:00

How to find our Drop-In Sessions:

1. Enter via the main Holloway Park entrance on Parkhurst Road (opposite the disused taxi rank).
2. Follow the signage to our project office.

NEW APPRENTICE ON SITE

Building something that will outlive me.

"My first experiences with building were rather practical. I had an active toddler who was putting the structural integrity of our flat to various tests: hanging and swinging on curtains, drawing on walls and pulling down every shelf she could reach!

I didn't have the money to hire a handyman every time something needed fixing, so I learnt to do my own DIY and keep the flat standing.
When I was looking for a new career after maternity leave, I became interested in renewable energy. What surprised me was that, whatever the original source of the energy, it has to be converted into electricity before it can be used.

As I explored electrical work, I also discovered how durable the things we build can be. Electrical installations can serve people for decades, and I found it satisfying that the work we do today can benefit people who may not even know who built it.

That is one of the things I find inspiring about working at Holloway Park. We are not simply installing things according to a manufacturer's instructions. We are building part of a place where people will eventually live, and I want the work we do to provide future residents with something that looks and works well for many years to come.
I am now undertaking a Level 3 Electrotechnical Apprenticeship and enjoying the opportunity to learn the practical side of the industry while contributing to a major construction project."

To date we have had 28 apprentices on site, We are continuing to recruit more local people for new opportunities. To find out more about how to become an apprentice please visit our Holloway Park Community Website.

Ganna is working on site with Wilton electrics and is completing an electrotechnical level 3 apprenticeship.
